

## **Tungsten Carbide Airless and AAA Tips**

EXITFLEX proudly offers the best range of top quality tungsten carbide spray tips for airless spray and air assisted airless spray systems. Every EXITFLEX tip is carefully manufactured and individually tested for assured quality, performance and life under demanding conditions.

### **Flat Tips**

Convenient flat tip in a quality stainless steel housing suitable for all airless spray guns.  
Full range available, see chart on page 3.  
Type 63-505

### **Line Marking Tip**

Special cutting process to give sharp edge definition for accurate line marking.  
Type 63-507

### **Insert Tips**

Designed to fit reversible ball systems and Blastaway Pony.  
Available in the same range of sizes as the flat tips, refer chart page 3  
Type 63-510 Standard Type 63-515 Brass faced

### **Superfine**

Where highest quality atomisation is required with low atomising pressures then EXITFLEX superfine tips with integral pre-orifice are the best solution.  
Available in a range of sizes to meet all applications.  
Type 63-509

### **Pre-Orifice Plates**

Pre-orifice plates may be used together with flat tips to reduce tip wear and improve atomisation.  
Sizes 0.016" 0.019" 0.026" 0.039"  
Type 63-004 63-005 63-007 63-010

### **Airless and Air Assisted Tips**

The following range of EXITFLEX airless air assisted tips are available.

Type 63-550	AK pattern	Fits Kremlin (pin)
63-552/30	AK pattern	Fits Kremlin (groove)
63-560	AG pattern	Fits Graco
63-570	AS pattern	Fits Sagola

63-597	AW pattern	Fits Wagner
63-598	AD pattern	Fits Optima (Wiwa)
63-610	DT pattern	Fits Dete

### **Adjustable Airless Tips**

Where it is more important to be able to change angle and orifice without changing tip, this is the ideal solution.  
These tips can also quickly clear blockages.

Size 0.005"- 0.018"	341-015
0.007"- 0.019"	341-020
